

Project Brief

The project is done in collaboration with award winning musician and HipHop producer VI the Law. VI the Law has a weekly livestream called the Beat Auctionz where artists can place bids on beats and the highest bidder gets the beat. Two instrumentals will be made available for a collaboration on the CollaboMe platform. Graphic Designers will work on a collaborative project to create the cover art of the songs. During the Beat Auction there will be special mention of the CollaboMe platform and the joint venture will receive a segment.

CollaboMe Project Categories
